Green Dot | Training "Together  can make a difference"

Register Now!

Palm Beach County's Green Dot Program is an innovative violence prevention and intervention strategy designed to ensure – and prevent new incidents – a reduction of power-based personal violence in our communities. This includes domestic violence, dating violence, sexual violence, child abuse, human trafficking, and stalking related to Palm Beach County's Violent Crimes. The Green Dot Strategy is delivered through far and wide Public Employee Trainings. These comprehensive trainings are facilitated by Green Building and Safety Specialists.

The Green Dot program saw great success in 2016, reaching over 100,000 employees and providing a safe place to live. More than 100 from the Public Safety Department, Palm Beach County Library, Community Services Department and Youth Services Department, like you also included the first annual Green DOT ACTION Month, in which all county employees were invited to participate in a month-long poster art competition as well as other fun activities that day in a moment that – otherwise goes unacknowledged.

With support from County Administration, Veterans' Issues, Green Dot also attracted the attention of former Palm Beach County Mayor, Raquelia Boudie, who introduced the training in July. Not only did she enjoy the experience, but she is also encouraging more staff to attend. This is wonderful! She outlined after being handed the Green Dot pin and certificate. It is not that, within two years, all county employees will be trained on how to implement the Green Dot Strategy using the:

Knowledge and tools gained to make our community a safer place to live. The ultimate goal is that by year 2020, Palm Beach County is living the Green Dot.

This year the Green Dot program will focus on training employees from Public Safety, Law Enforcement Department, Tourist Development Council, Public Affairs, County Attorney, Engineering & Public Works, Intergovernmental Affairs, and Airports Department.

Employees from last year's target departments – Community Services Department, Finance Department, Youth Services Department, and Public Safety Department, who also invited and encouraged to attend. Training dates are available now through January 2018. For more information on the Green Dot program contact, please email or call the following:

Color Palette

Main colors for the PBC Intranet
were carefully selected
using tints extracted from colors
found in Palm Beach County logo.

Design

Throughout the design process, three different themes were built using HTML and CSS. Later on, as the design moved into the CMS integration, two more theme mockup web pages were built in SharePoint 2013 and SharePoint 2016. After various revisions, some of the original features changed as the design integration process called for different updates such as text styles and spacing.

Header Design:

Custom images were created to accommodate the total width of screens up to 3500px; the original design featured a slide show to rotate images, which through the integration process to SharePoint was changed to a static random image selector.

Slider:

A custom slider was created replicating the same size of the slider used on PBCGov.com (1170px by 405px). Primarily the use of the same size was intended to save time by being able to seamlessly interchange slides between the intranet and PBCGOV.com.
